The Illinois Fund Our Futures Coalition has compiled a list of revenue solutions that would generate over $1.5 billion in new revenue for the state annually.

As the needs of one community are held up against the needs of another, billions in potential revenue are left on the table from big corporations and the wealthiest Illinoisans, who can easily contribute more to ensure our state is welcoming and caring for all.

Now is not the time to scale back – it’s time to generate the necessary revenue and consistent funding for essential programs that help low and moderate income families thrive across Illinois.

### Did you know?

- Illinois’ tax system is currently the 8th most unequal of all states and the most unequal of all states in the Midwest.
- Households with the lowest 20% of family incomes pay more than twice the percent of their income toward state and local taxes as those with the top 1% of incomes.

The Illinois Fund Our Futures Coalition has compiled a list of revenue solutions that would generate over $1.5 billion in new revenue for the state annually.

**Proposed new revenue solutions that the ILGA can pass for FY25:**
